Final year Data Analytics Course Specialism, eagerly looking for 2025 graduate role programmes to ignite professional growth.

### Work Experience

#### Risk and Project Work/ Fund Services Intern

From June 2024 to September 2024 Impax Asset Management Dublin, Ireland

- Contributed to the development of RCSA workshops, reviewing and updating records extracted from Protecht (platform for Enterprise Risk Management & Visualisation).
- Aided in enhancing the oversight of most significant service providers.
- Worked with the Head of Risk and Compliance in the production and ultimate submission of the Liquidity management tool as required by the Central Bank of Ireland.
- Assisted with updating local risk registers with data to be visualised on Power BI.
- Frequent use of Excel to better present risk data through charts, graphs and formulas and functions for further analysis.
- Assisted in producing Essential Product Template (EPT) and European MiFID Template (EMT) reports, ensuring compliance with MiFID II regulations and transparency for investors.
- Involved in analysing key fund data and information, ensuring accurate reporting, and contributing to ongoing improvements in fund-related processes.
- Actively collaborated with the Fund Services team to streamline operational processes and enhance internal systems such as through the updating of the company's crib sheet for funds.

#### Operations & Compliance Intern

From June 2023 to August 2023 Kestrel Capital Dublin, Ireland

- Examined both qualitative and quantitative data of client investment profiles.
- Inspected 100+ client accounts before inputting into the company's systems.
- Updated and reported on compliance regarding client accounts.
- Partook in meetings which involved informing clients of their current and prospective performance.
- Analysed trends and figures with Bloomberg during learning sessions.
- Reported on findings in biweekly team meetings.

#### Hospitality Intern

From June 2022 to August 2022 The Address Connolly Dublin

- Communicated through various forms with residents, hotel departments and external contacts.
- Learned to prioritise time and tasks.
- Daily use of Excel, Word, Outlook as well as the hotel management system hotsoft.
- Worked with other receptionists, supervisors and business units daily informing and updating each other.

### Interests

#### Volunteering

- Helped organise and participated in clean-up initiatives in the Calanques - a natural wonder of Marseille, France.

#### AI & Technological Innovation

- Enthusiastic about exploring trends in AI and technology advancements.
- Passionate about finding ways to improve systems or workflow, increasing efficiency and speed through automation and tools like Excel shortcuts.

#### Member of DCU consulting society

- Gained practical insights into business strategy and consulting, developing analytical skills and teamwork through real-world projects and industry engagement.
